The amendments filed August 16, 2001 and November 18, 2002 propose amendments to the claims that do not comply with 37 CFR 1.173(b), which sets forth the manner of making amendments in reissue applications. A supplemental paper correctly amending the reissue application is required. In particular, the claims must be amended in relation to the patented claims, not the claims of previous amendments. For example, all new claims should be totally underlined even if they are amended versions of claims that have been previously amended.

A shortened statutory period for reply to this letter is set to expire TWO MONTHS from the mailing date of this letter.

The assignee has not established its ownership interest in the patent, in order to support ~~the terminal disclaimer~~ ^{action under 37CFR 3.73(b).}. There is no submission in the record establishing the ownership interest by either (a) providing documentary evidence of a chain of title from the original inventor(s) to the assignee, or (b) specifying (by reel and frame number) where such documentary evidence is recorded in the Office (37 CFR 3.73(b)). Although the "REISSUE APPLICATION BY THE INVENTOR, OFFER TO SURRENDER PATENT" filed on March 14, 2000 has the box checked stating that "filed herein is a certificate under 3.73(b)", there does not appear to be any 3.73(b) statement giving the reel/frame number of the assignment.
